Stream/Shoreline

Intermittent Stream

Deep Trail/Walkway/Ferry

Property/Fence Line

River

Railroad

Nonvisible Boundary

Clayey

Military Inset Out Area

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

¹ A + following a place name indicates that the place is also a false MCD; the false MCD name is not shown.

² In 1990, the crews-of-vessels population of ships at sea was allocated to census tracts with a "99" suffix. An anchor symbol appeared on the 1990 maps locating a crews-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number above near the area.

³ A + following a block number indicates that the block number is repeated elsewhere in the block.

1990 COUNTY BLOCK MAP (RECREATED)
(90RBLK) 19353027018000000000

All legal boundaries and names are as of January 1, 1990 as tabulated for the Public Law 94-171 and Summary Tape File products. The boundaries also reflect the feature network and coordinates as of the Census 2000 geographic base. Since 1990 the Census Bureau updated the base from the North American Datum of 1927 (NAD27) to the datum as of 1983 (NAD83) and made numerous updates to the base features from those depicted in 1990. The boundaries shown on this map are for the Census Bureau's statistical data collection and tabulation purposes only; their depiction and designation for statistical purposes does not constitute a determination of jurisdictional authority or rights or ownership or entitlement. Source: U.S. Census Bureau's TIGER database (Census 2000). Projection: State-based Albers Equal Area U.S. DEPARTMENT OF COMMERCE Economics and Statistics Administration U.S. Census Bureau

The plotted map scale is 1:20000

Inset Out Area

Where international, state, and/or county boundaries coincide, map shows the boundary symbol only from the country or jurisdiction having those boundaries.

1 A "•" following a place name indicates that the place is also a false MCD; the false MCD name is set aside.

2 In 1990, a census-of-enclaves population survey at sea was allocated to census tracts with a "SE" prefix. An anchor symbol appears on the 1990 maps indicating the areas of vessel traffic. These maps show a very small area designated as a census tract by the census tract number shown near the area.

3 A "+" following a block number indicates that the block number is repeated elsewhere in the sheet.

The diagram illustrates various types of boundaries and features in a landscape, categorized into three rows:

- Row 1:**
 - Highway:** Represented by a solid black line.
 - Pipe/Power Line:** Represented by a dashed black line.
 - Stream/Shoreline:** Represented by a blue line with wavy, irregular edges.
- Row 2:**
 - Secondary Road:** Represented by a solid black line with short, perpendicular tick marks.
 - Ridge/Physical Feature:** Represented by a dashed black line with a central line and short, perpendicular tick marks.
 - Intermittent Stream:** Represented by a blue line with wavy, irregular edges, similar to the first stream but potentially indicating a different flow regime.
- Row 3:**
 - Jeep Trail/Walkway/Trail:** Represented by a solid black line with short, perpendicular tick marks, similar to the secondary road but potentially indicating a different level of use or width.
 - Property/Fence Line:** Represented by a dashed black line.
 - Nonvisible Boundary:** Represented by a dashed black line.

Below the main diagram, there are three additional elements:

- Map Label:** A blue square with a white border containing the word "Mudflat" in white text.
- Inset:** A gray square with a black border containing the word "Inset" in black text.
- Out Area:** A gray square with a black border containing the words "Out Area" in black text.

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

- ¹ A "*" following a place name indicates that the place is also a false MCD; the false MCD name is not shown.
- ² In 1990, the crews-of-vessels population of ships at sea was allocated to census tracts with a ".99" suffix. An anchor symbol appeared on the 1990 maps locating a crews-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.
- ³ A "*" following a block number indicates that the block number is repeated elsewhere in the block.

All legal boundaries and names as of January 1, 1990 as tabulated for the Public Law 94-171 and Summary Tape File products. The boundaries also reflect the feature network and coordinates as of the Census 2000 geographic base. Since 1990 the Census Bureau updated the base from the North American Datum of 1927 (NAD27) to the datum as of 1983 (NAD83) and made numerous updates to the base features from those depicted in 1990.
